Euless, Texas 76039

Dear City of Euless:

This letter serves as a sole source document for products manufactured by Brazos Technology.

The Brazos Technology BuildIT platform is the only platform that allows users to modify all aspects of their Electronic Citation solution though a web-based interface. This web based toolkit means that the City does not have to install software in their environment in order to make any change to the citation solution which dramatically reduces the City's cost over the life of the project. The City can also use this toolkit to build other mobile applications that are unrelated to electronic citations and further leverage the original hardware investment.

To the best of our knowledge, no other vendor manufactures and distributes these or similar items. Please let me know if you should need further details.

Sincerely,

Michael S. McAleer
President
Brazos Technology
