Clyde Cullum
Street Supt.
City of Euless
201 N. Ector
Euless, TX 76039

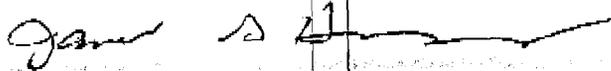

Dear Clyde:

We could renew our HMAC price for another year at \$57.00 per ton provided that the City would adjust the price based upon the variance in the price of liquid asphalt increase or decrease. Our price of \$57.00 per ton is based upon the liquid asphalt price of \$635.00 per ton. For every \$5.00 per ton change in price of liquid the HMAC price would change .25 per ton (i.e., a \$20.00 per ton change in the price of liquid would result in a price adjustment of \$1.00 per ton of HMAC). We would send you a copy of our liquid price each month to substantiate the increase or decrease with a letter stating the new price. The prices would be good for a month irrespective to any volatility during the month.

This is similar to the method that the City of Arlington, Fort Worth, and Tarrant County are now using for their HMAC purchases. Due to the volatility of liquid HMAC we feel that the escalation/de-escalation is fair to all parties.

I hope this is acceptable and look forward to continuing furnishing HMAC to the City of Euless.

Sincerely,

James G. Humphrey
President
