

Custom-Crete

Oldcastle® APG Texas, Inc.

Mr. J.T. Ackerman,

2009 Contract Renewal

From discussions with Roger Perez, he asked that I write to you regarding the current City of Euless pricing per our contract. At this time, Custom-Crete is not seeking a rate increase and is honoring the pricing agreement through 2009.

As always, it is difficult to determine raw material and production costs far in advance. This is especially true with a volatile commodities market impacting our pricing. Nevertheless, Custom-Crete will make every effort to hold our costs down while providing your organization with the best products and services possible.

If you have any questions, please do not hesitate to contact Roger or myself.

Thank you for your business,

Jerry Gaubert
