**RE: Fuller Wisser Road - Paving, Drainage, and Utility Improvements  
      BID #015-08**

Dear Mr. Harts,

We received bids on May 1, 2009 for the above referenced project. Five bids were received, with a low bid of \$390,810.10 submitted by McClendon Construction Co., Inc. and a high bid of \$474,988.78 submitted by McMahon Contracting, L.P.

Our firm has had frequent experience with McClendon Construction. They have constructed several projects that we have designed, and they performed well on those projects. I personally talked with Dan McClendon, president of McClendon Construction. He expressed confidence in their ability to do the work based on their experience with hundreds of similar projects. He provided several contacts including Bart Van Amburgh, with the City of Mansfield, as well as several engineers from Teague Nall and Perkins. All references contacted had positive reviews of the work done by McClendon Construction and of their capabilities.

Therefore based on the information above, I recommend the City of Euless award the contract to the low bidder, McClendon Construction Co., Inc. for the Fuller Wisser Road – Paving, Drainage, and Utility Improvements. If you have any further questions please feel free to contact me.

Sincerely,  
**Teague Nall and Perkins, Inc.**

Daniel P. McCullough, P.E.
