Re: Reclaimed Water Delivery System to Texas Star Golf Course  
Bid # 007-10

Dear Mr. Harts:

We received bids on May 12, 2010 for the above referenced project. Three bids were received with a low bid of \$1,157,625.00 submitted by William J. Schultz Inc., dba Circle C Construction and a high bid of \$1,215,792.00 submitted by Wright Construction.

Our firm has worked with Circle C Construction in the past on a few projects. They are a smaller construction company that provides a lot of work for the City of Fort Worth. We have worked with them on a 16" Waterline Extension to Turtle Creek, which was approximately 2 miles of ductile iron pipe with bores and creek crossings. We also worked with them on a low pressure sewer project for residence around Lake Worth, which had used 2 miles of HDPE pipe with bores and connections.

Therefore, based on the above information, I recommend the City of Euless to award the contract to the low bidder, Circle C Construction for the above mentioned project. If you have any further questions, please do not hesitate to let me know.

Sincerely,

ALAN PLUMMER ASSOCIATES, INC.

Daniel Applegate, P.E.,

DA/cp
