

The location at 407 W. Euless Road, Euless, TX is currently an automotive repair shop and will remain an automotive repair shop in addition to adding state inspections and the sale of tires.

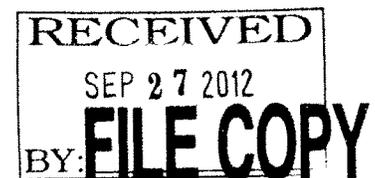

There will be approximately 100 tires stored inside the building at a time. They will be on metal racks that stand three rows high with a total height of about six feet that will line the inside wall of the shop area and occupy approximately 300 square feet of the 1568 square feet of shop area.

The used tires that are to be removed from the premises will be stored in an enclosed metal bin that will be locked at all times. It will be approximately eight feet wide and twenty feet long and be located behind a six foot fence on the west side of the building inside an area that is approximately 40 feet wide and 30 feet long that is attached to the building on one side and has an eight foot fence on the other side. The enclosed metal container will be emptied on a regular basis, once a month to begin with, then more frequently as the business increases. The used tires will be removed from the shop area and be placed directly into the metal container and will not be stored inside or outside the building.

There are four bays that are 10 feet wide on the north side of the building facing West Euless Blvd. The bay that is closest to the waiting room will be used for repair and replacement of tires as well as unloading of new tires. The other three bays will be designated for exhaust service, light auto repair, and state inspections. There are two entrance/exits from West Euless Blvd onto the property, and two entrance/exits from Vine Street. There is an entrance/exit into the waiting area under the front awning and an entrance/exit in the rear of the building behind the shop area in addition to the four overhead bay doors facing West Euless Blvd and one bay door in the rear of the building.

There will be no vehicles stored overnight in the parking lot area and no work performed on the premises except for inside the shop area.

The business will be open from 8:00 am to 6:00 pm Monday – Friday and employ 3-4 people.
