

CITY COUNCIL COMMUNICATION
May 14, 2013

SUBJECT: Authorizing the City Manager to Seek Bids for Phase I for the Extended Reclaimed Water Distribution System

SUBMITTED BY: Chris Barker, Assistant City Manager

REFERENCE NO:

ACTION REQUESTED:

Consider authorizing the City Manager to seek bids for Phase I of the extended Reclaimed Water Distribution System.

ALTERNATIVES:

- Table the request
- Deny the request

SUMMARY OF SUBJECT:

As part of the FY2013 Budget, the city council approved a Capital Improvements Water Project (WT1201) for the extension of the Reclaimed Water Distribution System in phases. Phase I would consist of a reclaimed water pump station and approximately 10,000 linear feet of distribution pipeline necessary to supply reclaimed water service to the Riverwalk Euless development and to several multi-family and developed and undeveloped commercial properties located north of Midway Drive and south of Ash Lane.

The proposed bid schedule includes seeking bids for Phase I of the extended Reclaimed Water Distribution System beginning on May 20, 2013, which would result in a request to award bid being placed on the June 25, 2013 city council agenda. This time frame would allow for the construction of the project to take place in such a manner as to provide reclaimed water service to the Riverwalk Euless development during construction of their initial phases as well as provide reclaimed water service to the multi-family and commercial properties prior to summer of 2014.
