## **1.0 EXECUTIVE SUMMARY**

### **1.1 Introduction**

The Americans with Disabilities Act (ADA) is a civil rights law that mandates equal opportunity for individuals with disabilities. The ADA prohibits discrimination in access to jobs, public accommodations, government services, public transportation and telecommunications. The City of Euless has initiated a comprehensive self-evaluation of its policies, programs and facilities to determine the extent to which individuals with disabilities may be restricted in their access to City services, activities and facilities.

This document will guide the planning and implementation of necessary program and facility modifications over the next several years. The ADA Transition Plan is significant in that it establishes the City's ongoing commitment to the development and maintenance of policies, programs and facilities that include all of its citizenry.

### **1.2 Federal Accessibility Requirements**

The development of a transition plan is a requirement of the Federal Regulations implementing the Rehabilitation Act of 1973, which requires that all organizations receiving federal funds make their programs available without discrimination to persons with disabilities. The Act, which has become known as the "civil rights act" of persons with disabilities, states,

*No otherwise qualified individual with a disability in the United States shall, solely by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. (Section 504)*

Subsequent to the enactment of the Rehabilitation Act of 1973, Congress passed the Americans with Disabilities Act on July 26, 1990. The Department of Justice's Title II regulation adopts the general prohibitions of discrimination established under Section 504 and incorporates specific prohibitions of discrimination for the ADA. Title II provides protections to individuals with disabilities that are at least equal to those provided by the nondiscrimination provisions of Title V of the Rehabilitation Act. This legislative mandate, therefore, prohibits the City from, either directly or indirectly through contractual arrangements:

- Denying persons with disabilities the opportunity to participate in services, programs, or activities that are not separate or different from those offered others, even if the City offers permissibly separate or different activities.
- Selecting facility locations that have the effect of excluding or discriminating against persons with disabilities.

The City of Euless is obligated to observe all requirements of Title I in its employment practices; Title II in its policies, programs and services; any parts of Titles IV and V that apply to the City and its programs, services or facilities; and all requirements specified in the Americans with Disabilities Act Access Guidelines of 2004 (ADAAG) that apply to facilities and other physical

holdings.

Included in Title II are administrative requirements for all government entities employing more than fifty (50) people. These administrative requirements are:

- Designation of a person who is responsible for overseeing Title II compliance;
- Development of an ADA grievance procedure;
- Completion of a self-evaluation; and
- Development of a transition plan if the self-evaluation identifies any structural modifications necessary for compliance. The transition plan must be retained for three years.

### **1.3 State of Texas Accessibility Standards**

In addition to complying with ADA requirements, the City will also comply with the Texas Accessibility Standards, Elimination of Architectural Barriers as contained in Texas Government Code, Chapter 469.

### **1.4 Declarations**

#### **Notice under the Americans with Disabilities Act**

In accordance with the requirements of Title II of the ADA, the City of Euless will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

#### **Employment**

The City of Euless does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.

#### **Effective Communication**

The City of Euless will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they may participate equally in the City's programs, services, and activities, including but not limited to, qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

#### **Modifications to Policies and Procedures**

The City of Euless will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity of the City of Euless, should contact:

ADA Coordinator  
201 North Ector Drive  
Euless, TX 76039

(817) 685-1439

To ensure accommodations, please make contact as soon as possible but no later than 48 hours before the scheduled event.

The ADA does not require the City of Euless to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden. Decisions on the nature of this alteration will be made by the City ADA Coordinator on a case by case basis.

Complaints that a program, service, or activity of the City of Euless is not accessible to persons with disabilities should be directed to:

ADA Coordinator  
201 North Ector Drive  
Euless, TX 76039  
(817) 685-1439

The City of Euless will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services to accommodate participation in programs or services.

### **1.5 ADA Grievance Procedure**

A grievance procedure has been established to meet the requirements of the ADA and may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, or programs by the City of Euless. The City of Euless' ADA Employment Policy governs employment-related complaints of disability discrimination.

Complaints shall be submitted in writing to the office of the ADA Coordinator. The written documentation shall include:

1. The name, address and telephone number of the complainant;
2. A narrative and/or statement, in sufficient written detail including date and time of the incident to fully define and explain an alleged violation of the ADA regulations;
3. A narrative and/or statement, in sufficient written detail, identifying proposed recommendations, from the complainant's viewpoint, to adequately resolve an alleged violation; and
4. Any other written information or documentation to more fully explain or identify an alleged violation.

Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint will be made available for persons with disabilities upon request.

The complaint should be submitted as soon as possible but no later than 60 calendar days after an alleged violation to:

ADA Coordinator  
201 North Ector Drive  
Eules, TX 76039

A form that may be used for the purpose of submitting a grievance is available on the City's Accessibility web page (<http://www.eulesstx.gov/info/accessibility.htm>). This form is attached to the Plan as Appendix "A." Within 15 calendar days after receipt of a complaint, the ADA Coordinator will acknowledge receipt of the complaint and may, at his discretion, meet with the complainant to discuss an alleged violation and possible resolutions.

Within 30 calendar days after receipt of a complaint, the ADA Coordinator will respond in writing or, if requested, in an alternative format accessible to the complainant, such as large print or audio tape. The response will explain the position of the City of Eules and offer options for substantive resolution of the complaint.

If the response by the ADA Coordinator does not satisfactorily resolve the issue, the complainant may file an appeal within 15 calendar days after receipt of the response. The appeal should be in writing and addressed to:

City Manager  
201 North Ector Drive  
Eules, TX 76039

Within 15 calendar days after receipt of the appeal, the City Manager or designee, will acknowledge receipt of the appeal and may, at his discretion, meet with the complainant to discuss the complaint and possible resolutions.

Within 30 calendar days after receipt of the appeal, the City Manager or designee will respond in writing, or if requested, in an alternative format accessible to the complainant, with a final resolution of the complaint.

Complaints related to facility accessibility issues will be elevated to a higher priority status for resolution.

All written complaints received by the ADA Coordinator, appeals to the City Manager, and responses from these offices will be retained by the City of Eules for a period of at least three years from the date of final resolution.

## **2.0 COMPLIANCE WITH ADA TITLE II REQUIREMENTS**

### **2.1 Self-Evaluation and Transition Plan**

Title II of the ADA requires that the City conduct a self-evaluation of its services, policies, and practices and make modifications as necessary to comply with 28 C.F.R. §35.105. A self-evaluation is an assessment of the City's current policies and practices and identifies and corrects those policies and practices that are inconsistent with Title II's requirements. The ADA Transition Plan includes assessments of buildings, public rights-of-way, communication needs, etc. and identifies any physical or programmatic barriers to accessibility that might be present. The ADA Transition Plan provides a schedule that indicates a projected time for resolution and the department responsible for implementation. The City has begun the self-evaluation process through an internal assessment and will continue the process through the solicitation of public comments. The resulting ADA Transition Plan will be a living document that is updated periodically.

### **2.2 Notification**

Applicants, participants, beneficiaries, and other interested persons have been notified of their rights and the City's obligations under Title II of the ADA and as required by 28 C.F.R. §35.106. This notification appears on the City's Internet home page ([www.eulesstx.gov](http://www.eulesstx.gov)) and copies are posted in conspicuous locations in public buildings. Public meeting notices and agendas also include this notification.

### **2.3 Designation of a Responsible Employee**

The City has designated a responsible employee to coordinate its efforts to comply with and carry out the City's ADA responsibilities in accordance with 28 C.F.R. §35.107(a). ADA Coordinator, has been designated to oversee compliance with the non-discrimination requirements contained in the Department of Justice regulations implementing Subtitle A of Title II of the Americans with Disabilities Act (42 U.S.C. §12101 et seq.), which prohibits discrimination on the basis of disability by public agencies. The ADA Coordinator can be contacted at (817) 685-1439, or [cscott@eulesstx.gov](mailto:cscott@eulesstx.gov).

### **2.4 Establishment of a Grievance Procedure**

The City has established a grievance procedure for resolving complaints of violations in accordance with 28 C.F.R. §35.107(b). See section 1.5 above. The form for submitting a grievance is available at <http://www.eulesstx.gov>.

### **2.5 Accessibility of Facilities Constructed or Altered After January 26, 1992**

The City's self-evaluation has identified facilities that require modification in order to be accessible and usable by people with disabilities. This document includes a listing of facilities that have already been improved for accessibility as well as this ADA Transition Plan that indicates facilities that will be modified in the future. The ADA Transition Plan will be updated periodically to communicate progress made towards completion of any project listed.

## **2.6 Ensuring Effective Communications**

In accordance with 28 C.F.R. §35.160, the City will ensure that communications with applicants, participants, and members of the public with disabilities are as effective as communications with others. When necessary, the City will provide auxiliary aids and services to assist with communications.

## **2.7 Access to 9-1-1 Services**

The City provides direct access via TTY (text telephone) or computer-to-telephone emergency services, including 9-1-1 services for persons who use TTY's and personal computers.

## **2.8 Provision of Information**

The City provides information as to the existence and location of accessible services, activities, and facilities to interested persons, including persons with impaired vision or hearing. This information appears on the City's Internet home page ([www.eulesstx.gov](http://www.eulesstx.gov)) and is also stated in meeting notices, agendas, and City publications.

## **2.9 Provision of Signage**

The City provides signage at all inaccessible entrances to each of its facilities, directing users to an accessible entrance or to information about accessible facilities.

## **2.10 Emergency Management**

The City of Euless Office of Emergency Management develops, maintains and facilitates the all-hazard Emergency Operations Plan as required by Local, State and Federal statutes and laws. During all emergency planning, (Mitigation, Planning, Response, Recovery) the City is committed to be in compliance with the ADA requirements as outlined in Chapter 7 Under Title II of the ADA. The Office of Emergency Management ensures that all parties with responsibilities under the Euless Operation Plan (EOP) are aware of ADA requirements and that all programs, documentations, and third party agreements are also in compliance with ADA. The Office of Emergency Management utilizes Federal, State, Regional, County, and Local resources to educate, to provide emergency warning and notifications, and to notify and keep informed those persons with disabilities within the City. These systems were developed and continue to be modified after numerous disasters throughout the country and the lessons learned. Euless relies on both voluntary registration and multi prong methods as listed:

- (EAS) Emergency Alert System (Federal)
- (IPAWS) Integrated Public Alert And Warning System (State)
- Relay Texas (State)
- (STEAR) State of Texas Emergency Assistance Registry (State)
- (SNAP) Special Needs Assistance Program (Local)
- NIXLE (Tarrant County)
- (WENS) Wireless Emergency Network Service (Local)
- Deaf Link (Local)
- Warning Sirens (Local)

- Cable Overrides (Local)
- KNOW WHAT TO DO (Local)

### **3.0 SELF-EVALUATION, TRANSITION PLAN & STEPS TAKEN**

#### **3.1 Self-Evaluation**

In 2011 the City began a re-evaluation of its policies, programs, and procedures to determine current levels of service and the extent to which its policies and programs created barriers to accessibility for persons with disabilities. Under the leadership of the ADA Coordinator, departmental liaisons were brought together for the purpose of facilitating the self-evaluation. The ADA Committee included representatives from Fleet/Facilities Maintenance, Parks and Community Services, Texas Star Golf Course, Information Services, City Secretary’s Office, City Manager’s Office, Finance, Planning and Development, Police, Fire, and Library. An external registered accessibility specialist was also utilized to provide training for the ADA Committee and perform accessibility reviews of City facilities and parks.

The ADA Committee conducted an evaluation review of physical barriers in its buildings and facilities in 2012. The elements and their related features addressed in the facility survey included:

Parking Area	Sign
Passenger Loading Zone	Door
Curb Ramp	Corridor or Aisle
Sidewalk	Building Level
Exterior Ramp	Interior Stairway
Exterior Stairway	Elevator
Site Furnishings	Interior Ramp
Swimming Pool	Multiple User Restroom
Game and Sports Area	Single User Restroom
Play Equipment Area	Bathing Facility
Viewing Area	Room
Drinking Fountain	Eating or Dining Area
Telephone	Dressing or Locker Room
Hazard	Picnic Area

Recognizing that the City has limited funds and cannot immediately make all buildings and facilities fully accessible, City staff will utilize the following criteria as the basis for prioritizing the removal of physical barriers:

- Quantity and frequency of public use
- Uniqueness of the facility
- Age or condition of the facility
- Geographic distribution
- Critical nature of the programs offered at the facility
- Public feedback obtained through the grievance process
- Location of disability services
- Planning of future construction activity

There are two types of accessibility: physical accessibility and program accessibility. Absence of discrimination requires that both types of accessibility be provided. The ADA establishes requirements to ensure that buildings and facilities are accessible to and usable by people with disabilities. Design guidelines to achieve accessibility have been developed and are maintained by the U.S. Access Board under the jurisdiction of the ADA. The ADA Accessibility Guidelines (ADAAG) cover a wide variety of facilities (including buildings, outdoor recreation areas and curb ramps) and establish minimum accessibility requirements for new construction and alterations to those facilities. The City may achieve physical accessibility by ensuring that a facility is barrier-free and meets ADAAG technical requirements and State of Texas standards. Barriers include any obstacles that prevent or restrict the entrance to or use of a facility.

As new City facilities have been constructed or existing buildings remodeled, the City has complied with State of Texas design requirements through review by the Texas Department of Licensing and Regulation (TDLR) or one of their Registered Accessibility Specialists.

Programmatic accessibility includes physical accessibility, but also entails all policies, practices and procedures that permit people with disabilities to participate in programs and to access important information. Program accessibility requires that individuals with disabilities be provided an equally effective opportunity to participate in or benefit from a public entity's programs and services. The City may achieve program accessibility by a number of methods, both structural and nonstructural:

- Structural methods such as altering an existing facility;
- Acquisition or redesign of equipment;
- Assignment of aides; and/or
- Providing services at alternate accessible sites.

When choosing a method of providing program access, the City will give priority to the one that results in the most integrated setting appropriate to encourage interaction among all users, including individuals with disabilities. In compliance with the requirements of the ADA, the City provides equality of opportunity but does not guarantee equality of results.

As a result of the City's self-evaluation, existing programmatic and physical barriers to access were identified and are presented in Appendix "B".

The City is not required to take any action that it can demonstrate would result in (i) a fundamental alteration in the nature of a program or activity, (ii) would create a hazardous condition for other people, or (iii) would represent an undue financial and administrative burden. This determination can only be made by the ADA Coordinator and City Manager, and must be accompanied by a statement citing the reasons for reaching that conclusion. The determination that an undue financial burden would result must be based on an evaluation of all resources available for use in a program. For example, if a barrier removal action is judged unduly burdensome, the City must consider other options for providing access that would ensure that individuals with disabilities receive the benefits and services of the program or activity.

### **3.2 ADA Transition Plan**

The ADA also sets forth specific requirements for preparation of an acceptable ADA Transition Plan. At a minimum, the elements of the plan should include:

- A list of the current physical barriers at City facilities that limit the accessibility of its programs, activities, or services to individuals with disabilities (see Appendix “B”);
- A detailed outline of the methods to be used to remove these barriers and meet the current standards and accessibility regulations (see Appendix “B”);
- The name of the department that is responsible for the plan’s implementation (See Appendix “B”).

The City posted a draft version of this ADA Transition Plan on its website and requested that interested persons, including individuals with disabilities or organizations representing individuals with disabilities, participate in the self-evaluation process by submitting comments. A public hearing was held on November 24, 2014.

### **3.3 Action Steps Taken to Improve Accessibility**

The City of Euless has been intentional about enhancing physical and programmatic accessibility. Appendix “C” provides a list of action steps already taken to improve access.

## 4.0 SIDEWALKS & CURB RAMPS TRANSITION PLAN

The Transition Plan for Sidewalks and Curb Ramps combines the findings of the review of policies, procedures and design standards regarding sidewalks and curb ramps with the City’s ongoing curb ramp inventory. The City has already enhanced pedestrian access via street-related capital improvement projects and will continue these improvements to meet its overall accessibility goals.

The ADA Coordinator with assistance from the Director of Public Works established a plan for correcting such issues based upon a priority system. Accessibility issues with existing streets and sidewalks have been and will be prioritized based on a ranking system that places higher priority on areas that are near schools, parks, and major thoroughfares. Points were assigned to each curb ramp based on location as follows:

LOCATION	POINTS
Within 800’ of a School	10
Within 800’ of a Park	8
Next to Existing Compliant Ramps	7
Along a Major Thoroughfare Road	6
Along a Collector Road	4
In a Commercial Area	3
In a Residential Area	2
In an Industrial Area	1

The points are added together if more than one location applies. For example, a ramp on a major thoroughfare near a school would have a value of 16 points. This priority system will be used to determine when sidewalks and curb ramps are installed or made compliant. As streets and sidewalks are constructed or reconstructed, ADA standards are followed. The plan will be integrated into the City’s capital improvement plan with a timeline for implementation. The Director of Public Works and the ADA Coordinator will be responsible for overseeing the work. The City may at times advance or delay a scheduled project based on a modification that may affect the original plan.

The following appendices provide information regarding the City’s transition plan for sidewalks and curb ramps:

Appendix “D” - Completed Sidewalks and Curb Ramps

Appendix “E” - Status of Curb Ramp Construction

Appendix “F” - Sidewalks and Curb Ramps to be Completed

Appendix “G” – Future Curb Ramp Construction

## 5.0 CONCLUSION

Services and programs offered by the City to the public must be accessible for all citizens given that reasonable accommodations may be made for those with disabilities. Accessibility applies to all aspects of a program or service, including advertisement, orientation, eligibility, participation, testing or evaluation, physical access, provision of auxiliary aids and transportation. The process of making City facilities and programs accessible to all individuals will be an ongoing one and the City will continue to review accessibility issues through resolution of complaints and by making reasonable modifications to programs.

The City has made progress towards improving accessibility as seen by the following actions:

- Designation of an ADA Coordinator
- Implementation of an ADA grievance procedure
- Conducting a self-assessment to identify issues needing to be resolved
- Creating a curb ramp inventory database to provide a systematic approach for using resources to mitigate existing non-compliant ramps going forward
- Complying with federal and state requirements as facilities are modified or constructed
- Planning future improvements through the capital improvement plan

The City will also periodically evaluate the success of improving access to programs by the practices and procedures developed during the self-evaluation process.

It is imperative that the City interact with the disabled community to work together to identify and resolve accessibility issues. In addition to the existing grievance process, feedback will be obtained from the community by publishing this document on the City's website and requesting comments. In addition, the City Council will solicit comments at a public hearing. Upon receiving public input, City staff will update the Plan and make it available to the public. Periodic updates will be made to the Plan going forward.

# Appendix "A"

**AMERICANS WITH DISABILITIES ACT (ADA) GRIEVANCE FORM**  
TITLE II of the Americans with Disability Act Section 504 of the Rehabilitation Act of 1973

Identifying and applying signage to non-accessible entrances.	Buildings throughout the City	Posting signage	2015	ADA Coordinator / Facilities	Applicable entrances will be addressed.

## Appendix “C” Action Steps Taken to Improve Accessibility

### Citywide

- All employees who interface with the public have been made aware that auxiliary hearing devices are available through the ADA Coordinator to assist with enabling persons to fully participate in City programs and services. Other services and aids such as Braille, large print, qualified readers or interpreters are available upon request through the uniform process to request access barrier removal or auxiliary aids. Documentation of employee training related to interfacing with the public is kept on file.
- The Employee Policy Book includes the following policies:
  - **ADA Employment Policy** which prohibits employers from discriminating against qualified individuals with disabilities and requires that reasonable accommodations be made for applicants and other employees with disabilities.
  - **ADA Accessibility Policy** which states,  
*“Understanding that government has a responsibility to provide services to all, the City of Euless will continue making reasonable accommodations for users and participants with disabilities by applying appropriate standards, techniques and technologies as they become available and affordable. Notices announcing public meetings, activities, and programs must include an accessibility statement.”*

### Euless Police Department

- A TDD line has been installed at the Euless Police Department with a published number on all publications to improve services for those with hearing disabilities. Telecommunicators receive training, mandated and provided by the State of Texas, on usage and that usage is covered in Department General Orders and Standard Operating Procedures. All full-time and part-time telecommunicators are tested on the usage by the training officer twice per year.
- There is an annual review of Department general orders and procedures for compliance with ADA by Police Department leadership (i.e. Police Chief, Assistant Police Chief, Captains, Lieutenants, and Dispatch Leads). All Police Department employees are tested monthly on General Orders through a subscribed automated testing system. That system also pushes out changes, additions, and subtractions to General Orders as Laws (State and Federal) and Court cases (State and Federal) change.
- All Police Department employees are aware of City ADA policy. They follow that policy and understand how and when to contact either the Department ADA Coordinator or City of Euless ADA Coordinator to assist with enabling persons to fully participate in Department Programs and Services. All employees are instructed in and then expected to know City Policies and Department General Orders and Procedures. This knowledge or lack of is reflected in their evaluations and if needed corrective action is taken.
- The ADA notice has been posted at the Front Desk, Records, CID, Administration, Patrol, Jail and at all public meetings, training, or Police Department programs.
- Sensitivity training is offered to all Police Department staff on an on-going basis with regards to persons with disabilities. Training is provided through instructional videos, City and Department Policies and Department General Orders, written material found through web sites and periodicals and monthly testing on General Orders. All instructors within the Police Department are Certified Instructors by the State of Texas.

### **Eules Fire Department**

- The ADA notice has been posted at the entrance or front desk area at each station.
- Fire Department policies have been reviewed for compliance with ADA.
- Staff has been instructed to review the City's Auxiliary Aid & Access Barrier Removal and Grievance Complaint Form.
- Sensitivity training is offered to all on an on-going basis with regard to persons with disabilities. Training is provided through instructional videos, City and Department Policies and Department General Orders, written material found through web sites and periodicals and monthly testing on General Orders.

### **Human Resources**

- Staff has been made aware to refer all concerns and complaints to the ADA Coordinator.
- The location of the employment brochures was lowered to comply with ADA standards.
- The ADA Coordinator has prepared a master list of all services available for the disabled community.

### **Library**

- The Library staff has been made aware of the importance of reasonable accommodation in providing library services, and of the services available to library patrons, such as the lighted page magnifier, large print books, and sign-language interpretation services. Patrons are made aware of these services through signage that states patrons may approach library staff for assistance.
- Library staff has been instructed to refer ADA questions or complaints to the City's ADA Coordinator.
- ADA notices have been posted at the library entrance and at all public meetings.
- All library flyers and signage promoting public events includes the notice that sign-language interpreters are available upon request, with reasonable notice, and includes contact information about access to special accommodations.
- Library tours are provided in a way that allows people with mobility, visual, speech, hearing, and cognitive disabilities to fully participate.
- Parking lot re-striping provided additional handicap parking spots and an additional curb ramp was provided.

### **Texas Star Raven's Grille**

- Large print menus have been provided for sight impaired patrons. In addition, parking lot modifications allowed for the relocation of an existing handicap parking spot to a more accessible location.

### **Planning & Development**

- The placement of all brochures and forms made available to the public was relocated to comply with ADA standards.

### **Utility Billing**

- An additional payment drop off box was installed in an accessible location at the front

entrance of the Finance/Water/HR building.

### **City Website ([www.eulesstx.gov](http://www.eulesstx.gov)) and Cable TV Government Access Channel**

- The City's website was upgraded in 2012 to provide a direct link to the accessibility standards and contact information. An icon has been added to the City's website to attract users who have specific need for information related to accessibility.
- A public announcement related to accessibility has been added to the City's cable TV government access channel.

### **Parks**

- All City parks were supplied with accessible picnic tables in 2012.
- Braille signage has been added to the South Euless pool. In addition, the parking lot was re-stripped to provide handicap parking areas.
- A connecting trail was installed to provide accessibility to the historic Fuller House located at Heritage Park.
- A trail was extended at the Villages at Bear Creek Park to the west end of the "Bear's Den."
- Curb ramps and connecting trails to the playground were installed at McCormick, Trailwood, and Bob Eden parks. Additional trail material was added around the exercise stations at Bob Eden Park.
- Railings were installed in the women's restroom at Bob Eden Park.
- Compliant restroom signage was installed at the Parks at Texas Star and Wilshire Park.
- All ADA ramp projects constructed within the City of Euless limits are designed by a Texas Registered Professional Civil Engineers as well as the City Engineer.
- All curb ramps constructed for the Tarrant County Community Development Block Grant are inspected by a third party Registered Accessibility Specialist.
- An accessible entrance has been added to the tennis courts at Lakewood elementary.
- An accessible route has been added at Bob Eden Park from parking lot to playground.
