

Introduction to the Famous and Historic Tree Grove

Welcome to one of
unique tree planting
Metroplex. This grove
American Forests Famous

the finest and most
projects in the
is the result of the

and Historic Tree Program
and the City of Euless Parks & Community Services Department.
The grove serves as a living classroom where citizens, young and old,
can learn and experience a part of American history.

Trees have always been a part of man's need for survival, from the
food he eats to keeping warm in the winter. Trees are an important
part of our landscape and are protectors of the environment. Trees
are a source of joy and spiritual renewal. They are a part of our past
and a promise for our future.

Americans are fortunate to have a rich and colorful historic
heritage. Trees stand as living witnesses to lives and events that
shaped our history. As a way to preserve our history, this Grove was
planted with trees purchased from American Forests and trees
grown from Euless Historic sites.

American Forests Famous and Historic Trees is dedicated to
preserving our environment and teaching people about our national
heritage by collecting seeds and cuttings from trees that have his-
toric significance. Euless Historic trees were grown from cuttings of
the original trees and nurtured in the greenhouse of the Euless
Parks Department. The Famous and Historic Tree Grove consists
of 31 different trees that have been placed into 7 categories.

As you venture through the grove, you will gain a new respect for
how long trees live and what these trees have to tell us. We hope that
you have a wonderful experience, and please remember to leave
nothing but your footprints and take nothing but your memories.

For guided tours, comments or for other information, please
call the Euless Parks & Community Services Department at
