Attended Lincoln Technical Institute in 2003-2004, while there I independently tested for all eight ASE certifications and passed, I became ASE Mater certified and graduated valedictorian of my class. I was given the opportunity to choose where I wanted to begin my automotive career. I chose to work on BMW's because I've always had a passion for them. I begin working at the BMW dealership in 2004 and received extensive training and knowledge of BMW systems and repairs. My education is continuing and ongoing, as I try to read and understand anything that I can get my hands on that pertains to new BMW technology and that I feel would be helpful to my future as a Bimmer tech.
