We are a performance festival for Elementary, Middle School and Junior High Bands, Choirs and Orchestras. We began the festival at the request of music teachers in Arlington, TX 17 years ago. We held our festival at iT'Z last year and it was a great success! For the bands we use a weather proofed tent since most bands are more than 30 people and their instruments can handle the weather. We do not have amplifiers for sounds. So the level of "noise" remains within the tent walls. We have between 20 – 200 students in the tent at a 40 minute time period. We will not be using the tent the entire time we are at iT'Z. Our festival will be held between 9am to 6:40pm. So there will not be any disturbances for the neighborhood at night. The managers of iT'Z, Euless suggested we erect the tent behind their building as to not cause any transportation issues with parking and for the students safety.

Site Description: iT'Z, 1201 Airport Fwy, Euless, TX 76040. I'm not sure of the zoning category. We will not be selling anything around or under the tent. It is simply for the students to have a cover during their performance. The placement of tent behind iT'Z is attached.

Access: The buses will enter from the south of the back of the building and exit out the north.

Parking: Buses will park in the front of iT'Z building parking lot. Some instrument trucks may park in the back near the tent to unload the instruments during the performance. Then they will move to the front parking lot.
