

EULESS TODAY

Did you know...? You can set alerts to detect water leaks with the new online customer portal? eulesstx.gov/news/NewWaterMeters.htm

Dear Citizens,
Please take a minute to familiarize yourself with our new emergency notification system called Nixle. We now have enhanced capabilities with subscribers and can send alerts for a variety of situations such as air quality issues, crime alerts, power outages and road closures in addition to weather-related issues. In addition, we can send links to websites, include pictures and pair it with other social media such as Facebook and Twitter. The Emergency Management Division of the Police Department has worked hard to set up this new system and we hope you will subscribe to it.

There are some great events scheduled in February that are designed for the ones you love. Whether it be the Daddy/Daughter Dance or the Valentine's Dinner at Texas Star, we hope you will take a few hours to spend it with someone you love. It's a good opportunity to slow down and have a little fun.

How to Attract Monarch Butterflies to Your Yard

February 1, 7 p.m., Euless City Hall, 201 N. Ector Dr.

Learn how easy it is to create your own Monarch Waystation! A waystation is simply a garden that provides food and habitat for Monarch butterflies and nurtures them through their complete life cycle.

Texas Master Naturalist Carol Clark will present the amazing story of the Monarch butterfly life cycle and migration, clarify some common misconceptions about Monarchs, explain historic and current threats to Monarch populations and show why Texas is a pivotal location for Monarchs' future success. The program also covers real steps you and other North Texas residents can take to help bolster the Monarch population, and what to plant to feed Monarchs. In addition, Carol will provide a list of plants. Come join us Thursday evening for this exciting program.

Carol Clark is an amateur botany enthusiast, a longtime member of the Native Plant Society of Texas and is now a Conservation Specialist with Monarch Watch. She and her husband own and operate Clark Haven Farm, a wildlife preserve and custom wildflower seed business in Cooke County. Carol grew up with a nature photographer father and wildlife artist brother, and has spent much of her life exploring the great outdoors. Her favorite things to do are leading discovery walks in local natural areas, as well as finding and photographing interesting plants and insects.

Residents Can Receive Local Alerts Through Nixle

The City of Eules has partnered with Nixle to provide an Emergency Notification System to alert residents in real-time about critical emergency information and community advisories in Eules.

Notifications may be sent for air quality issues, crime alerts, power outages, road closures, mosquito control, water outages and weather-related issues such as ice and flooding. Subscribers have the ability to select how they would like to receive notifications. This could be to a home, cell or business phone, email, text message or hearing impaired receiving devices at no cost.

Messages are initiated by the Emergency Management Division of the Eules Police Department as one of several methods of relaying vital information to citizens.

As a resident, there are several simple ways to register:

1. Text EULESS to 888777 from your mobile phone
2. Go to www.eulesstx.gov and sign up via the Nixle Widget

Once registered, residents will receive a confirmation text to their mobile device. Residents may also customize their alert settings by going to www.nixle.com and creating a User Profile.

All Alerts will be targeted geographically, allowing residents to receive localized, relevant alerts from the City of Eules. Nixle Alerts can be sent via Text, Email, Voice, Web, Social Media, and the Nixle Mobile App in an instant. Nixle is partnered with NLETS for data security, as well as the National Center for Missing and Exploited Children, the National Blue Alert Network, and Google for reach and two-way information exchange.

Give a Bubble!

Have you heard about the 2020 remodel of the Mary Lib Saleh Eules Public Library? One of the most distinctive additions will be the gorgeous art installation of the Bubble Wall. Features of the Bubble Wall will include LED color-changing lighting and a completely sealed water system requiring no maintenance.

Imagine entering the library to be greeted with the changing colors and constant movement of encapsulated bubbles floating up a wall! This beautiful Bubble Wall will be the focal point and highlight of the re-imagined library entrance and public lounge space. At 10 feet tall and 30 feet wide, you can enjoy the glass wall from either side. Continue past the Bubble Wall to enter the main library area, or walk "through" the bubbles to access the lounge area, which will be a multi-purpose space, accessible even when the library is closed, with technology, comfortable seating and vending available.

The Bubble Wall is the latest art installation of the Eules Library Foundation (ELF), which has been providing public art to enrich the Eules community for over 20 years. ELF is raising money for the Bubble Wall and hopes to reach its \$100,000 goal by August 2018.

You can see a video of the Bubble Wall design on the Eules Library Foundation website (www.EulesLibraryFoundation.org) and even make a donation.

Three Ways You Can Help Make the Bubble Wall a Reality
