Boy Scouts Enhance Euless One Project at a Time

Have you noticed some youthful workers painting fire hydrants in your neighborhood recently? Chances are they are Boy Scouts, and not city employees. Over the past few years, the City of Euless has been partnering with scouts on community service projects as they work towards their Eagle Scout Award.

This year, Eagle Scout candidates Sekope Colon and Stuart Beck are applying a reflective silver paint to 40 fire hydrants in Euless' residential areas. Silver hydrants are more visible than red ones and silver paint doesn't fade as quickly. Another Boy Scout is working on his Eagle Scout badge by building approximately a dozen bat boxes to provide shelter for bats. Located in a flood plain in Euless, these bat boxes are ideally situated for bats to consume mosquitos and other flying insects.

James Whitt, Assistant Director of Public Works, likes working with Eagle Scout candidates. "These Boy Scouts provide a valuable service to our City," says Whitt. "For instance, we have over 1,700 hydrants in Euless. Three scouts can paint about 60 hydrants in a few months. In years past, Boy Scouts have also painted handrails along Euless walkways, planted trees in parks and even installed play features at the Euless Animal Shelter dog park."

Collaborating with Boy Scouts is a win-win situation. As volunteers, the scouts learn valuable lessons and enhance their leadership skills, while the City of Euless improves its infrastructure without impacting the City's budget. For more information, contact James Whitt at 817-685-1581.

National Night Out

Tuesday, October 2, 7 p.m.

Turn on your outside lights, lock your doors and spend the evening outside with 38 million people in more than 16,000 communities. Each year on National Night Out, Eules residents proactively deter crime by organizing a variety of special events within their neighborhoods. Get your neighborhood involved in National Night Out to promote police/community partnerships, and learn about violence and drug prevention while building neighborhood unity. Send a message to criminals letting them know your neighborhood is organized, involved and fighting back. The Eules Police and Fire Departments invite all neighborhoods in Eules to meet in their neighborhood parks and join with the police and the nation to "take a bite out of crime." You can request a visit by representatives of the Fire Department at 817-685-1600 or the Police Department at 817-685-1536.

*Look. Listen. Learn. Be aware.
Fire can happen anywhere™*

Fire Prevention Week October 7 - 13

The latest statistics from the National Fire Protection Association (NFPA) show that if you have a reported fire in your home, you are more likely to die today than you were a few decades ago. Through three simple calls-to-action, you can reduce your risk to fire and be prepared in the event of one:

- Look for places fire can start. Take a good look around your home. Identify potential fire hazards and take care of them.
- Listen for the sound of the smoke alarm. You could have only minutes to escape safely once the smoke alarm sounds. Go to your outside meeting place, which should be a safe distance from the home and where everyone should know to meet.
- Learn two ways out of each room and make sure all doors and windows leading outside open easily and are free of clutter.

Although fires can occur anywhere, four out of five U.S. fire deaths occur at home each year. Share this information with your family and friends, so they will know what to do in the event of a fire. For more information, visit www.FirePreventionWeek.org.

Become a Texas Master Composter

October 13 & 20, 8:30 a.m. - 3 p.m.

Eules Senior Center, 300 W. Midway Dr.

Composting is nature's way of recycling organic matter and returning it to the earth. It's great for your yard and saves you money on water, fertilizer and chemicals. This course gives students an in-depth look at composting, its benefits and its challenges. Along with an introduction to vermi-composting (worms), students will learn about hands-on bin building and the biology of composting.

Participants receive a free composting thermometer at the end of the class, in addition to books and workshop materials for their personal use. Students are expected to provide 20 hours of volunteer time back to the community over a year to help further environmental education. The first 30 students completing their 20 hours of volunteer time will receive a free backyard composting bin.

The registration deadline is October 10. Please bring a brown bag lunch. For more information and to register, contact Betsy Deck at 817-685-1821.

Prepared in cooperation with the North Central Texas Council of Governments through funding from the Texas Commission on Environmental Quality.
